DAVIS IS INDICTED

New Echoes of the Notorious McNamara Brothers Now Serving Sentences.

NEW YORK, Oct. 2.—George E. Davis alias George O'Donnell was arrested by a federal marshal here today charged with blowing up with dynamite a New Haven railroad bridge in Mt. Vernon, N. Y. in 1911.

Davis is also charged with having conspired with the McNamara brothers, Frank M. Ryan, and other officers of the International Bridge Workers Union to wreck other bridges. It is asserted that Davis has confessed.

Davis was arraigned before a United States commissioner, waived examination, and consented to go to Indianapolis, where he is under indictment for transporting explosives.

SECRETARY IS IMPLICATED BY DAVIS'S CONFESSION.

INDIANAPOLIS, Oct. 2.—Harry Jones, secretary-treasurer of the International Association of Bridge Workers, was arrested here today on a charge of conspiracy. Jones, it is said, is implicated in the confession of George E. Davis, who was arrested in New York today.

Jones is a new figure in the case. He was formerly financial secretary of a New York local of the iron workers and was elected international secretary-treasurer last January. The affidavit against him, charging conspiracy to transport explosives unlawfully was made by an assistant United States district attorney.

United States District Attorney Charles W. Miller, who was in charge of the dynamite trials here, is in New York and was in charge of the Davis arrest today. At the headquarters of the union here, a stenographer said that Jones was the only official in the office here today. She said the other officials said that Frank M. Ryan, who was lately released on bond, was traveling in the interest of the union.

CIVIL SERVICE

Law is to Be Knocked Sky High by the Democrats in Congress.

WASHINGTON, Oct. 2.—A new provision that would take practically all deputy United States marshals and deputy collectors of internal revenue out of the protection of the civil service has been added to the urgency deficiency appropriation bill by the Senate committee, which reported the measure back to the Senate today. It provides that collectors and marshals shall have power to appoint any deputy and shall have power to revoke the appointment of any subordinate officer and appoint his successor at his discretion without regard to the civil service law.

An appropriation of \$7,000 for the purchase of an automobile for Vice President Marshall was also added to the bill.

Neither of them expects to be back much before the time for final adjournment, as the House will be practically idle from now till the end of the special session. Adjournments of three days at a time will be taken and by agreement no business is to be transacted till the currency bill is returned from the Senate to the House for concurrence in the Senate amendments. Mr. Sutherland expects to go into the first district and assist in bringing about the election of Julian G. Hearne to Congress. He expects to make several speeches in the district.

TO PASS BRIDE OFF AS HIS HIRED GIRL

WILLIAM T. JEROME, SULZER ATTORNEY

William T. Jerome.

William T. Jerome, former district attorney in New York city, is a very busy man these days. Before he was called upon to act as deputy attorney general in the Thaw case he was retained by Governor Sulzer as one of the latter's attorneys in the impeachment trial. Unless the Thaw matter is settled up before the impeachment trial is over, however, it is likely that Jerome will withdraw as one of the Sulzer counsel.

(BY ASSOCIATED PRESS) MILWAUKEE, Oct. 2.—Declaring that his business would be ruined if the news of his marriage was made public, an applicant for a marriage license today asked that his name be withheld from publication. "I own a butcher shop and am coining money. There are more than 300 unmarried young ladies living in my neighborhood. Because it is known that I am making money, their mothers send them to my shop and if they found out I was getting married, they would boycott me. When I get married, I will introduce my wife as my new hired girl."

DEATH HOVERS OVER AEROPLANE VICTIM

One of the Six Injured at Elkins is Most Likely to Die.

(BY ASSOCIATED PRESS) ELKINS, Oct. 2.—With Willard Nalen hovering between life and death in a hospital here, little hope is held out that yesterday afternoon's aeroplane accident would result in no fatalities. Of the six persons injured, Mrs. J. A. Boylan's condition is the worst, the fingers of her right hand being cut off and her arms and body terribly mutilated.

Prompt action on the part of Bruce Carter, a negro, probably saved the life of his employer's little son, Sutton Schrader. Carter covered the little fellow with his own body and sustained minor bruises.

SULZER DEFENSE

(BY ASSOCIATED PRESS) ALBANY, Oct. 2.—There was no morning session of the impeachment trial today, giving everyone connected with the case a chance to discuss and speculate on his probable defense. Final plans of the Sulzer lawyers were drawn up at a conference with the governor this morning but no statement was issued. Senator Hineman had not completed the preparation of his opening statement for the defense early today and he said he did not now when he would be able to finish it.

Doubt was expressed as to whether the governor's side of the case would get under way until next week.

ENTOMBED MINER BEGS FOR DYNAMITE AND RESTLESS NOW

Wants to Blow His Way Out of His Underground Prison Cell.

RESCUERS TO REACH

Unfortunate Man by Noon Tomorrow If There is No Mishap.

(BY ASSOCIATED PRESS) CENTRALIA, Pa., Oct. 2.—With 25 feet of a solid pillar of coal to cut away, rescuers hope to reach by noon tomorrow, Thomas Toshesky, who has been entombed in the Continental mine for six days. Today air compressors were installed and the work of digging away the wall is expected to proceed more rapidly. Only one miner at a mine was able to work last night.

Toshesky is becoming restless. He started to dig himself out and had cut away about three feet of coal when those on the outside warned him lest he cut the rope, used in drawing his provisions through the long pipe that had been pushed through to his room. Toshesky said he had to do something to pass the time away.

He begged for a stick of dynamite to blow down portions of the barrier between himself and liberty. To quiet him, another bottle of egg nog was sent in to him. He was more cheerful during the night after the fifteen minute talk he had through the pipe with his wife.

Three shifts of thirty men each are engaged in the rescue work, the more experienced miners being employed. A telephone line was constructed from the mine down the mountain, three miles, to the coal office, in order that the officials might keep in touch with the rescue work.

GOFF'S SECRETARY

Makes Protest against the Immediate Removal of Postmaster Frank Smith.

(SPECIAL TO THE TELEGRAM) WASHINGTON, Oct. 2.—Secretary McDermott of Senator Goff's office has visited the postoffice department and made a protest against the removal of Frank S. Smith as postmaster at Parkersburg, before he was properly "checked out" by an inspector. It appears from information received that Mr. Smith has been ordered to turn over the office to his successor, Simms Powell, without the customary auditing formalities, and this he has declined to do. The department claimed that it had no inspector to send to transfer the office, though conceding that Mr. Smith was acting within his rights in demanding a proper "checking out" and a receipt. The department made no definite statement of what it would do in the face of the vigorous protest registered by Secretary McDermott in behalf of Postmaster Smith.

NOMINEE HEARNE MAN OF THE HOUR

Republican Candidate for Congress Meets Many Voters and Workers.

FACE TO FACE TALK

Warm Assurances of Support at the Polls Are Given the Nominee.

The visit of Hon. Julian G. Hearne, of (Wheeling, Republican nominee for Congress, to Clarksburg last night was enthusiastically marked. The nominee had every reason to feel that his candidacy is popular in this section of the congressional district.

Party workers and others in the city and from many points of the county gathered in the lobby and assembly room of the Waldo hotel, where they met and conversed with Nominee Hearne in the most cordial way. All the many who were introduced to him were favorably impressed with him and the remark was general that Hearne is the man of the hour in this district.

The meeting in the assembly room was featured by short speeches by many pledging the candidate heartiest support and among those present were men who voted for Colonel Roosevelt who declared themselves emphatically against the third party movement in this campaign. Some who voted for Colonel Roosevelt deplored the blunder now attempted to divide the protective tariff vote and thus tend to aid in the election of a free trader to Congress.

Mr. Hearne very forcibly and clearly let it be known that he stands for reasonable protection of the industries and workmen of this country, and that if elected to Congress, he will use his best endeavors to represent the district to that end. His earnestness created a deeply-rooted conviction in the minds of his auditors that he in Congress would be the right man in the right place.

The candidate is not only earnest and sincere but he also possesses a magnetic personality and easily draws and keeps friends.

The information was given that Senator Nathan Goff is slated for speeches in the campaign October 9, 10 and 11 and possibly the day before the election. It is understood he will make two speeches every day he is on the stump.

DEMOCRATS AGREED ON TARIFF MEASURE

Support of the Conference Report Seems United in the Senate Now.

(BY ASSOCIATED PRESS) WASHINGTON, Oct. 2.—Democratic support of the conference report on the tariff bill appeared to be united when the Senate today began the final consideration of the Democratic revision measure. The caucus of yesterday, which had threshed out the differences in party ranks and brought about harmony, led Chairman Simmons to believe there would be little delay in securing final action on the bill.

It was expected that Senator La Follette and Penrose would speak today in opposition to the measure. The decision of the Senate Democrats, who dropped the entire cotton futures tax out of the bill, it is expected will be endorsed by the House, as it passed the House by only a slight margin Tuesday.

(SPECIAL TO THE TELEGRAM) WASHINGTON, Oct. 2.—A message received here tells of the sudden death of former Congressman John F. Lacey, of Iowa. He dropped dead in the door at his home in Oaklawn. The news will be of interest in West Virginia for the reason that Mr. Lacey was born at New Martinsville and lived his boyhood years there. His last visit to West Virginia was several years ago when he was one of the speakers at New Martinsville during a home coming week celebration.

Is the Official Word Sent to Washington upon Anxious Inquiry.

(BY ASSOCIATED PRESS) WASHINGTON, D. C., Oct. 2.—Major Boggs, in charge of the Isthmian canal offices in this city, this morning cabled to Colonel Goethals at Panama for details of the earth shock on the isthmus last night, with special reference to its possible effect on the canal. This action was taken as a precaution, though the officials felt that Colonel Goethals would have advised them had the canal sustained injury.

It is recalled that from time to time that there have been slight shocks on the isthmus since the Americans began to build the canal, but in no case has there been any damage to the engineering work. It is said at the commission offices that little danger of injury to the canal could have been caused by any earthquake of record not only in the isthmus but in this hemisphere. There are standing structures erected several centuries ago, which probably would have been destroyed long ago by any considerable earthquake shock.

(BY ASSOCIATED PRESS) PANAMA, Oct. 2.—Absolutely no damage was done to the structure of the Panama canal by the earthquake, which occurred in Panama last night.
